

ABIP INSPECTION FORM

The Georgia Association of Broadcasters offers our Alternative Broadcast Inspection Program (ABIP), which allows a three-year immunity from a walk-in FCC inspection. Once compliance is achieved and a certificate has been issued, the FCC will not perform a random walk-in inspection of the station for three years from the date of certification.

NOTE: Exceptions to immunity: Tower safety issues & compliant-initiated issues related to political broadcasting or public file.

Sign-up:

Call: 404-523-8800 / Georgia Association of Broadcasters

I hereby certify that I am the General Manager of the station listed below and that the station is in compliance with all applicable FCC rules and regulations. I understand that this certification is subject to random walk-in inspections by the FCC.

I further certify that I have read and understand the terms and conditions of the Alternative Broadcast Inspection Program (ABIP) and that I agree to participate in this program.

I understand that this certification is valid for a three-year period from the date of certification and that the station will not be subject to random walk-in inspections by the FCC during this period.

I understand that this certification is not a guarantee of immunity from FCC enforcement and that the station remains subject to FCC enforcement for non-compliance with applicable rules and regulations.
